

**KIP 2300 System**  
Incredible Versatility  
Maximum Productivity  
Outstanding Image Quality

## KIP 2300

**The KIP 2300 production scan system is a high resolution, high speed solution that provides enhanced monochrome imaging and world-class color scan quality embodied in an exceptionally versatile and ergonomic design, ideal for both centralized and decentralized environments.**

### **2300 Mono / Color Scanner**

The KIP 2300 high productivity scanner sets a uniquely high standard for speed; quality and flexibility in a digital image capture system. The KIP 2300 is a high speed scan solution that provides world-class workflow flexibility. Best in class productivity is achieved by a combination of advanced camera based image capture and Super-Speed USB3 Technology for high speed data throughput with no pauses or delays.

Outstanding image quality is delivered through the innovative use of bright white LED light sources for illumination and 600 x 600 dpi image capture resolution.

The KIP 2300 monochrome & color scanner provides high demand users with the highest standards of image quality, versatility and productivity.

The KIP 2300 scanners unique product design allows users to capture, archive, print and share monochrome and full color images at high speeds with either face up or face down document feeding for maximum productivity.

### **Advanced Technologies**

- ✓ Direct connection support for KIP printers
- ✓ Preset scanning modes – standard or production
- ✓ Distinctive white LED original illumination system
- ✓ Advanced KIP technologies deliver superior results
- ✓ High speed throughput with Super-Speed USB3 Technology
- ✓ Mono scan speeds up to 12 ips
- ✓ Color scan speeds up to 6 ips

### World-Class Image Quality

KIP 2300 imaging technologies create crisp black and white prints, copies and scans of technical drawings, photographs, maps and renderings. An advanced grayscale mode is ideal for accurate photo reproductions.

The KIP 2300 Scanner provides high demand users with outstanding color fidelity without sacrificing speed or resolution! Compatible with KIP printers, the KIP 2300 provides scan to file and copy image quality that is far beyond the capability of any competitors.

### Face up / Face Down Flexibility

The KIP 2300 Color Scanner is designed with dual integrated document feed sections to satisfy both face up and face down scanning workflow preferences. The upper scan unit accepts face up documents for high speed scanning and delivers them back to the operator. The lower scan unit provides operators with the ability to stream feed originals for stream scanning jobs and to effectively scan thick originals, such as originals mounted on Sintra, foam core and other substrates

### Board Scanning

The KIP 2300 provides the ultimate ease of use functionality for scanning rigid and thick documents. By placing the 2300 scanner in "automatic board mode", documents up to 0.6" thick may be easily scanned to file or copied.

### KIP Color Express Software

This optional software package delivers advanced copying and scanning features and also includes the ability to RIP files to print. KIP Color Express software provides advanced color management features and professional image editing tools that allow you to perform difficult tasks easily and with consistent results from one job to the next.

- ✓ Total control of the copying process
- ✓ Full-featured scanning and archiving
- ✓ Open and RIP files
- ✓ Multiple KIP printer support
- ✓ Powerful tools to streamline usage

Optional KIP Color Express provides advanced copying, scanning and printing of all monochrome and color documents.

### The Color of KIP is Green

KIP is committed to product designs that promote environmental health and sustainability. Our goal is to consistently improve and refine the technologies in KIP products that keep our planet green.
