EXCLUSIVE TECHNOLOGIES

High Definition Print (HDP) Technology
KIP HDP is a green technology that is 100% toner efficient, reducing the cost of printing and returning outstanding value and industry leading low cost of ownership. KIP Systems do not employ carriers, developers or waste receptacles that require disposal and replacement.

600 x 1800 dpi – High Resolution
KIP Systems feature crisp, 600 x 1800 dpi printing for sharper details and extremely smooth grayscales. This higher resolution allows the system to enhance curves, diagonal lines and arcs by smoothing out line edges with excellent precision.

Consistent Print Quality
KIP Systems deliver solid blacks, smooth grayscale and uniform print quality from the first to the last page of a print job. Advanced technologies including automatic environmental adjustments and contact-based developer units keep your print quality on track through seasonal climate changes.

Media Capacity
The automated paper loading of the KIP 770 accepts up to a 500 foot roll of media (2”/52 mm or 3”/76 mm core) up to 36”/914 mm wide.
