

KIP Digital Displays

TABLETOP

QUICK START GUIDE - Display Connection: 32", 43" & 55"

In the Box: Touch Monitor | Power Supply and Power Cord | USB-C

Installation:

- **Connect the Cables - You have two ways to connect your computer:**
 1. Plug the USB-C cable into your computer and other end into back of monitor labeled USB-C. This cable activates both video and touch.
 2. If your computer doesn't have USB-C, connect the Displayport or HDMI cable for video and USB-C to USB-A to activate touch.*
- **Plug in the Power** - Connect the power cable to the monitor, then plug it into outlet.

*Cables not provided

Note: The monitor will turn on by itself when it sees a signal from your computer. You can change this in the monitor's settings menu if needed.

Maintenance: Ensure inside edges of the bezel are not obstructed.
